

PRODUCT INFORMATION SHEET

GO Hort Mulch

product name

GO Hort Mulch

description

GO Hort Mulch is a consistent dark and woody mulch. This mulch is different to other composted Green Organics products as it has no fines and is a larger particle size. It is screened through 15-30mm screen, with some larger particles included.

source

Composted mulch manufactured from recycled organics according to procedures outlined in AS4454 - Mulch.

benefits

- :: Composted mulch eliminating weed seeds and diseases
- :: Larger particles break down slower
- :: Reduced evaporation
- :: Good water infiltration
- :: Weed Suppression
- :: Erosion control

suitability

Due to the chunky sizing, GO Hort Mulch is suitable for large scale applications such as property developments, factory areas and general plantings where steep or windy areas are a factor.

application

- :: Apply to a depth of up to 100mm
- :: Keep away from plant stems and trunks

characteristics

Specification	GO Hort Mulch	AS 4454 - Mulch
Particle Size Grading	% Retained	
+16mm	90 - 95%	
- 16mm	3 - 6%	Medium Grade Mulch.
- 10mm	0 - 1%	
Organic Matter	73.75% dry wt	>25% Acceptable
Wettability	<0.1 min	<7 - Acceptable
pH	7.2 pH units	5.0 - 7.5 - Acceptable
EC	1.06 units	Acceptable
P - phosphorus total	0.04%	<0.1% - Acceptable
N - nitrogen total	0.48%	<0.6%

Test summary and recommendations - This mix has generally suitable physical and chemical properties. The low nutrient content indicates that no claim to plant nutrient can be made on the product and it should be marked as suitable for use on phosphorus tolerant species.
