

Product Fact Sheet

GO Mulch

BENEFITS

All the benefits of a mulch:

- Contains shredded timber (as per EPA Mulch Exemption 2016).
- Weed suppression.
- Reduced evaporation.
- Erosion control.
- Free draining.

All the benefits of a soil conditioner:

- Contains GO Compost, certified to AS4454.
- Improvement to soil structure.
- Water holding capacity.
- Addition of organic nutrients.

RECOMMENDED FOR

- Landcare and land rehabilitation projects.
- Sensitive areas.
- Horticultural applications such as vineyard mulching.

APPLICATION INSTRUCTIONS

- GO Mulch can be applied before or after planting, depending on site requirements.
- Apply 75 – 100mm depth, ensuring plants are not buried.
- Water well to move compost down into soil.
- Pull GO Mulch away from woody stems.

Keep away from stems
