

Product Fact Sheet

Gold Blend (AS4419)

BENEFITS

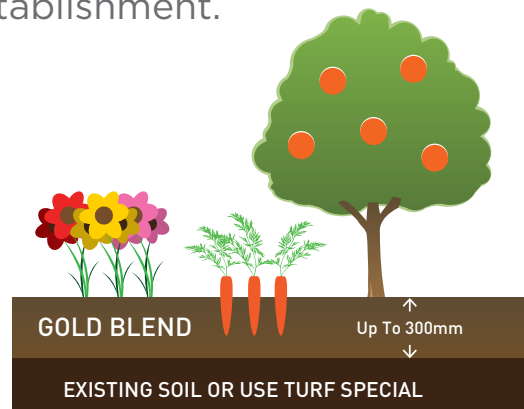

- Premium product with higher nutrients for gardens and landscaping.
- Open blend featuring a high organic content.
- Excellent water infiltration characteristics.
- Organic matter for slow release nutrients and superior water holding capacity.
- Contains certified VENM soil, free from contaminants found in building site excavated soils.

APPLICATION INSTRUCTIONS

- Gold Blend Organic Soil can be used as a top up for gardens OR to replace existing site soil where a good quality growing media is required.
- All weeds, rubble or turf should be removed.
- Apply at the required depth for the garden bed or at a optimum rate of 300mm, avoiding compaction.
- Water well to maintain even moisture level, particularly in the early stages of plant establishment.

RECOMMENDED FOR

- Trees & Shrubs
- Ornamentals
- Camellias & Azaleas
- Roses
- Herbs
