

# Product Fact Sheet

## Vegie Mix

### BENEFITS

- Rich open blend of soil, GO Compost and manure.
- Can be used to top up or establish new gardens.
- Excellent water holding capacity.
- Balanced supply of organic nutrients.
- No additional fertiliser required for at least one growing season.

### RECOMMENDED FOR

- Fruit Trees
- Vegetables
- Cut Flowers

### APPLICATION INSTRUCTIONS

- All weeds, rubble or turf should be removed. Loosen up the ground underneath to give extra depth and improve drainage.
- Apply at the required depth or a maximum of 300mm. If possible lightly dig in to existing site soil.
- Vegie Mix is high in nutrients, so it is important to water well and maintain moisture levels, particularly in the early stages of planting.
- Vegie Mix is stored in large piles and may retain heat. Allow to cool before planting.
